

CONVECO WITH AN ELECTRONIC  
THERMOREGULATOR (CN 04)

CN04 050 EIS W

TIN Code	304186
Net weight	3.54 kg
Maximum power	500 W
Thermo regulator	electronic
For room up to	10-15 m <sup>3</sup>
Heating area	4-6 m <sup>2</sup>
Height	0.45 m
Length	0.49 m
Depth	0.1 m
Under window installation	Yes

## Information

CN04 050 EIS W

Robust metal construction with excellent design  
LED display indicating desired room temperature  
Energy saving features  
ErP Compliant  
Optimal convection  
Electronic thermoregulator 10-30° C with accuracy  $\pm 0.1^{\circ}\text{C}$   
Weekly programmer 24h / 7d with 30-minute step  
Adaptive start with On / Off option  
Open window/door functions with On / Off option  
Delayed start function - up to 96 hours  
Security functions  
Anti-frost protection, fixed on 5° C, with On / Off option  
Keyboard lock / children protection  
Tip-over protection  
Overheating protection  
Bathroom installation option - splash proof IP24 protection

## Serie information

CN04 050 EIS W

Robust metal construction of the appliance and variation of models for wall mounting and floor standing  
Wide range of powers – from 500 W to 3000 W, covering heating area from 4 m<sup>2</sup> to 32 m<sup>2</sup>  
Models with electronic thermoregulator for more precise control and energy saving  
Numerous energy saving and security functions for optimal comfort, safe operation and efficiency
