

CONVECO WITH AN ELECTRONIC  
THERMOREGULATOR (CN 04)

CN04 250 EIS W

|                  |                      |
|------------------|----------------------|
| TIN Code         | 304190               |
| Net weight       | 7 kg                 |
| Maximum power    | 2500 W               |
| Thermo regulator | electronic           |
| For room up to   | 50-70 m <sup>3</sup> |
| Heating area     | 20-28 m <sup>2</sup> |
| Height           | 0.45 m               |
| Length           | 1.06 m               |
| Depth            | 0.1 m                |

## Information

CN04 250 EIS W

Robust metal construction with excellent design  
LED display indicating desired room temperature  
Energy saving features  
ErP Compliant  
Optimal convection  
Electronic thermoregulator 10-30° C with accuracy  $\pm 0.1^{\circ}\text{C}$   
Weekly programmer 24h / 7d with 30-minute step  
Adaptive start with On / Off option  
Open window/door functions with On / Off option  
Delayed start function - up to 96 hours  
Security functions  
Anti-frost protection, fixed on 5° C, with On / Off option  
Keyboard lock / children protection  
Tip-over protection  
Overheating protection  
Bathroom installation option - splash proof IP24 protection

## Serie information

CN04 250 EIS W

Robust metal construction of the appliance and variation of models for wall mounting and floor standing  
Wide range of powers – from 500 W to 3000 W, covering heating area from 4 m<sup>2</sup> to 32 m<sup>2</sup>  
Models with electronic thermoregulator for more precise control and energy saving  
Numerous energy saving and security functions for optimal comfort, safe operation and efficiency
