

CONVECO WITH AN ELECTRONIC THERMOREGULATOR
(CN 04)

CN04 050 EIS CLOUD W

TIN Code	305291
Height	0.45 m
Width	0.08 m

Information

CN04 050 EIS CLOUD W

- Maximum power : 500 W
- Optimal convection - up to 25% faster room heating
- Precise thermoregulator with an accuracy of 0.1°C
- Electronic thermoregulator 10-30°C
- Up to 21% lower electricity costs
- Thermostat calibration to achieve the desired comfort - temperature correction $\pm 4^{\circ}\text{C}$
- Build-in IEEE 802.11 b/g/n Wi-Fi module for control via Internet
- Weekly programmer 24h/7d with 30-minute step
- Adaptive start with on/off option - provides optimal comfort and saves energy
- Open window/door function - saves energy when detects an open window
- Bathroom installation option - splash proof IP24 protection
- Delayed start function - 96 hours
- Anti-frost protection, fixed on 5°C, with on/off option
- Keyboard lock / children protection
- Overheating protection
- LED display indicating desired and actual room temperature
- Robust metal construction

Serie information

CN04 050 EIS CLOUD W

Robust metal construction of the appliance and variation of models for wall mounting and floor standing

Wide range of powers – from 500 W to 3000 W, covering heating area from 4 m² to 32 m²

Models with electronic thermoregulator for more precise control and energy saving

Numerous energy saving and security functions for optimal comfort, safe operation and efficiency
