

CONVECO CN 055 MIS

CN 055 250 MIS F

TIN Code	306601
Net weight	6.46 kg
Maximum power	2500 W
For room up to	50-70 m <sup>3</sup>
Heating area	20-28 m <sup>2</sup>
Height	0.53/0.458 m
Width	1.01 m
Depth	0.076 m

TESY presents a new ConvEco family of electric convector heaters with expressive front grid, specifically designed by TESI engineers in completely new concept by stamped and bended openings, allowing optimal air circulation.

The floor-standing (portable) mechanical appliance is following the elegant, slim design of the rest of the convectors in our TESI portfolio. Its front panel with no additional plastic elements makes the outlook of the appliance much more delicate.

Our newest heating appliance is equipped with a lot of safety features and will be available in the best selling three powers.

- Floor-standing model with mechanical control
- Feet and wheels included in the package
- Robust metal construction
- Long lasting heating element
- White color

**Energy saving features:**

- Adjustable thermoregulator
- In compliance with the new ErP regulation 2024/ 1103 entering in force as of 01.07.2025
- Optimal convection

**Safety features:**

- Anti-frost protection
- Tip-over protection
- Overheating protection
- Switch with protective cap
